

Chuck Micallef

Canadian Singer / Songwriter - Solo, 2/3/4/ piece band.

Chuck has written some great Country Music & his CD is second to none (I've worn my copy out), Tracks, 3) loving you & 10) Old Man are outstanding. I don't get chance to see many bands, due to gigging with Texas Storm & The Armadillos but this is one guy I make a real effort to see, his band are all top class musicians & compliment him superbly.

I have had the privilege of singing with Chuck on a few occasions and every time I do I'm blown away by his amazing talent. Do yourselves a favour - Book him & buy that CD!

NEWS FLASH! I have just finished recording a track for Chuck on his new CD along with Ian Calford and Dean Austin the song is I Saw The Light and is something I am extremely proud to have been part of, this guy just keeps getting better and better so email me and order the album - NOW!!!
